

Continental Boulevard, Camp Sargent Road, Amherst Road, and Turkey Hill Road Water System Improvements

December 6, 2010 to December 17, 2010

Work Zone 1

Connection at Summit Road of the new 16" ductile water main on Turkey Hill Road will be completed. Side street connections and service connections to houses will be completed.

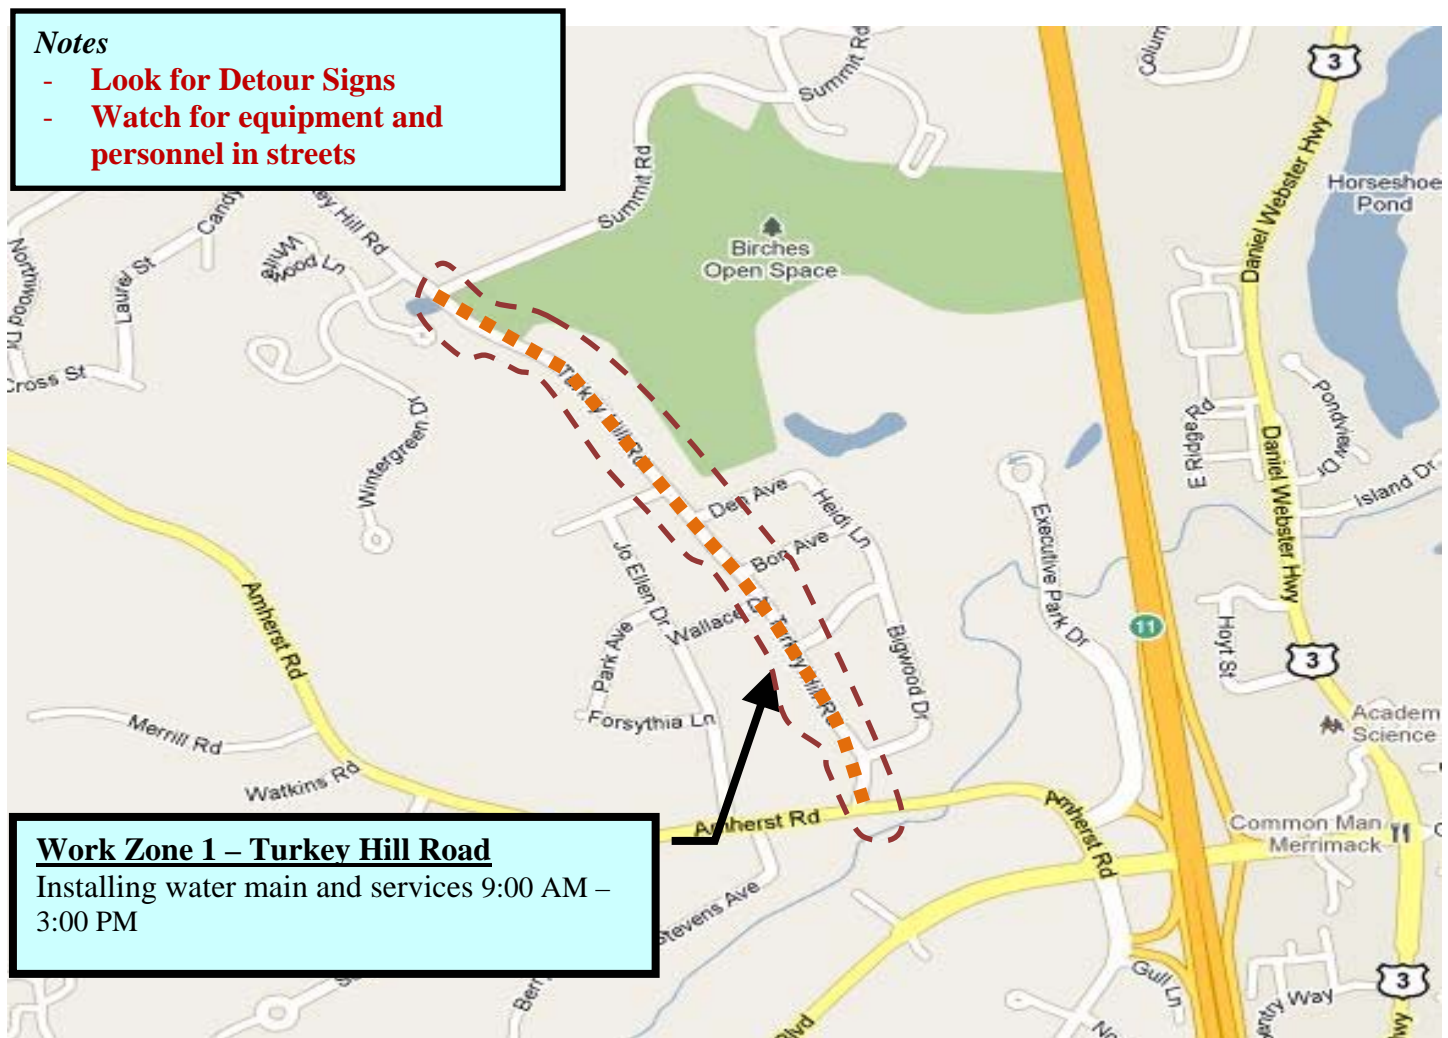

Work Zone 2

Side street connections and services will be completed on Continental Boulevard, Camp Sargent Road and Amherst Road.

Work Zone 3

Water main connection to be completed on Continental Boulevard, and Camp Sargent Road on Saturday December 11.

Temporary service interruptions will be necessary during the connections and should not last more than a few hours. The Contractor will provide advance notification to each resident prior to service interruptions.

Alternate traffic patterns and one lane traffic are anticipated at work areas. Vehicle operators should be alert when entering areas where workers and equipment are in the roadway. Please follow DETOUR signs, or seek alternate routes to minimize inconvenience to and from travel destinations. (See maps below for work zone areas).

General Info: Call Resident Engineer, Dave Foster with questions or comments at the field office trailer (603 262-1618) or cell phone (603) 828-3519. The field office answering machine message will be updated regularly with the project status.
