The MVD's Board of Commissioners adopted a System Development Charge (SDC) on August 19, 2008. This charge is applied to "new" customers and those existing customers who increase their water service demand beyond 20% of their current or prior use. The charge can best be described as a "buy-in" fee to achieve an equal equity position with the existing customers. This one-time payment will cover their share of the value of the existing infrastructure. Fire service entrances are not subject to the SDC. The "System Development Charge Use of Funds" policy (08-02-B) was approved by the BOC on 10/27/08. These funds can be used for water system expansion caused by an increase in demand for service, increase in consumption and the overall need for a supply increase necessary to meet the goals of the District.

ARTICLE 8: Shall the Merrimack Village District vote to raise and appropriate the sum of eight hundred thousand dollars (\$800,000) under provisions of RSA 35:1, I and II to add to the District's "Equipment and Facilities Capital Reserve" fund for associated costs with existing storage, transmission and production of water. This sum to come from the 2024-2025 unassigned fund balance. (Majority vote required.)

Additionally, should an emergency arise in future years, for which there was no appropriation, the Board of Commissioners would have these funds available for such purposes. This fund was established by the March 26, 1996 annual meeting
